## PROFILE

Junior Fullstack Developer with experience in developing web applications using Java (Spring Boot) and Angular. I specialize in building REST APIs, integrating with external APIs, managing databases (PostgreSQL), and implementing dynamic and responsive user interfaces.

I am motivated to continuously develop my technical skills and collaborate within a team, contributing to projects that deliver real value to users.

## PROJECTS

### MC-List.pl

<https://mc-list.pl/>

A platform for adding, searching and rating Minecraft servers. It allows filtering and editing server information, such as description, banner, administration, game modes and links.

**Stack:** Java, Spring Boot, Hibernate, PostgreSQL, JUnit, Angular, RxJS
